

Proposal on DAO structure and voting system

Community-Driven AirDAO

Concept: transition of AirDAO to the REAL DAO

Goals to achieve

- Transform AirDAO into a fully community-driven DAO with decentralisation in the decision-making process
- Incentivize community to actively participate in the network development and growth
- Draw “fresh blood” and new intelligence into the Ecosystem

AirDAO Initiative and Voting system

- **Collective governance** set of rules and procedures (**DAO Charter**)
- Governance structure (**Initiation and Execution bodies'** powers, authorities and conduct)
- **Ranking system** for network participants, executives and asset holders
- **Transparent** community **proposals** and **discussions** platform
- **Dashboard** (voting power ranking, proposals and voting tool, log of decisions, statistics)
- **Leaderboard** (public, transparent tool with shareable ranks and achievements of builders and voters)

AirDAO = Independent State

GWG (Governance Working Group) = Parliament - *Legislative Body*

- DAO's Regulatory base and procedures

Community = People - *Voting Body*

- Decides the course of the DAO's development

Council = Government - *Executive Body*

- Implementation of the Community's decisions

Collective Governance

Concept: Community builds governance collectively

GWG (Governance Working Group)

- **Call** for initiators, builders and holders to participate in the governance **DAO Charter drafting**
- GWG set up, agendas, workshops

Governance structure

- Community's and Initiators' power and authority
- Executive Body's power and authority

Voting Economics

- Distribution of voting powers based on Community members list and ranking system
- Consensus rules

Community Incentive

Community Forum - platform for collective initiatives, discussions

- Ideas
- Proposals / Requests for proposals (RFP)
- Roadmap
- Discussions

DAO Dashboard - platform for DAO functions execution

- DAO members authentication
- Ranking tool
- DAO voting tool
- Voting data and statistics
- Public board for accepted / rejected proposals and decisions

Community Leaderboard - platform for rating participation in the DAO

- DAO members' registered profiles
- Ranks and voting power display
- Activity and deeds
- Achievements and rewards
